

COSMOS 100 – HI-LO MASSAGE TABLE

Optional Pro head section

Reverse seated feature

Interchangeable pads

Adjustable armrests

Shown in Sangria upholstery

FEATURES

The Cosmos 100 was designed to accommodate the unique requirements of massage therapists. The highlight of this table is its head section, which can be adjusted for both lying and seated chair massage positions. The variable position armrests can be adjusted on 3 axes to comfortably position patients and relax the shoulders.

In addition, this massage table is also available with the optional NEW Pro head section which can be adjusted to support protraction and retraction when lying in prone and supine positions.

SOFT TOUCH TECHNOLOGY

Cardon's patented Soft Touch Footswitch has been strategically positioned on the base of your treatment table. Minimal amount of pressure applied by your foot will raise and lower the table with ease.
