

ECHO 125 DIAGNOSTIC IMAGING

Shown with optional assist rail

FEATURES

The Echo 125 is an echocardiography table designed for sonographers. Our innovative stress echo cut-out allows for obtaining the proper apical views. This feature provides you with a better imaging experience by giving you easier access to your patient and minimize foreshortening.

The Echo 125 easily adjusts to optimize ergonomic positioning for the sonographer while maintaining patient comfort. This table also features Soft Touch Technology providing you with convenient access to electric hi-lo controls. The maximum lifting capacity is 500 lbs.

Customizable stress echo cut-out(s) are available according to your requirements.

SOFT TOUCH TECHNOLOGY

Cardon's patented Soft Touch Footswitch has been strategically positioned on the base of your imaging table. Minimal amount of pressure applied by your foot will raise and lower the table with ease.
